

Alignment with Comprehensive Achievement and Civic Readiness and Additional LEA Strategic Plan Goals

This section focuses on the alignment of activities funded by ESEA Title programs with the LEAs strategic work as described in the Comprehensive Achievement and Civic Readiness (CACR) plan. This replaces the Worlds Best Workforce (WBWF) plan and goals as of July 1, 2024.

Minn. Stat. 120B.11 requires local school boards to adopt a comprehensive strategic plan to support and improve teaching and learning. ESEA Title funding should support these goals as part of the overall LEA and school improvement efforts. More information is available on the [Minnesota Department of Education CACR webpage](#).

Identify with a check in the correct box(es) in the chart below which ESEA Title programs are supporting each of the LEAs improvement goals as written in the LEAs CACR plan for the current school year. The LEA should retain documentation or records of how the work funded in whole or part by one or more ESEA Title program is aligned to these goals. This section addresses the ESEA goal-setting requirements and supports the alignment of district and school improvement activities.

Only select the goals to which expenditures are aligned during the state fiscal year to which this application applies. For example, it is not appropriate to indicate expenditures for third grade teacher professional development as directly supporting graduation rates. Though it is presumed an improvement in third grade instruction will indirectly impact graduation rates in several years, it is not the direct impact of the funds in the current year.
