November 4, 2020

DEAR WOLF CREEK FAMILIES,

With rising COVID-19 case counts in our local counties we believe it is necessary for Wolf Creek to close campus to student use and offer only distance learning in the future. We are actively monitoring the three counties where the majority of our students live; being Chisago, Anoka, and Washington. With this information we need to consider doing our part in stopping the community spread and ensuring the safety of all stakeholders at Wolf Creek.

Due to these low case counts with our staff and students we are prepared to keep campus open each Tuesday and Thursday through November 19th.

Important Points to Remember:

- Wolf Creek campus is not currently closed, campus will remain open until November 19th.
- Wolf Creek will continue to update you weekly on what is happening with campus during our closure period.
- We are ready to support all of our students and families in any learning models as experts in distance learning for over twenty years.

We are aware that local school districts around us are closing more quickly but please note that we are not a part of Chisago Lakes Schools and are our own school entity. For information on Wolf Creek campus openings or closures please continue to follow our communications.

At this time, we plan to continue with our campus closure through January 8th. Prior to January 11th we will be sending family communications to see if a return is feasible or if additional changes to our campus schedule need to be made.

Staff will continue to be on campus each Tuesday for a variety of student needs. Know that we are committed to ensuring that all needs are being met whether campus is open for student use or not. At this time we need the support of all Wolf Creek families to engage in the online interventions, reach out for help and assistance when needed, and encourage your students to remain safe in our community.

Sincerely,

TRACY L. QUARNSTROM

Director
